

A graduate of Wilson Memorial High School, Kirsten credits her mom, dad, and the rest of her family for helping her become the person she is today.

A very active member of her school's chapter of FCCLA she served as the President for the past three years. She participated in leadership conferences, winning state and national awards in all her competitions. Kirsten continued her grandfather's legacy of helping others through FCCLA. She was able to raise over \$8,000 for pediatric cancer and hold numerous community service events.

Her passion for helping others and traveling sparked her interest in Hospitality and Tourism. Kirsten will attend James Madison University in the fall, majoring in Hospitality Management and participating in the Disney College program as well.
