

**Placement of US Flag Decals
On School Buses
DOE Recommended Locations**

Recommended size flag decal is 4" x 6", standard decal with field to the top left. No reverse decals for the right hand side.

Type A Buses

Left and Right Side: Top corner area of fender, just forward of the cab.

Rear of Bus: Centered on door, between upper and lower window.

Type B Buses

Left and Right Side: Centered between the top two rub rails, right edge of decal positioned no closer than 3 inches from the bus number, left edge no further than 12 inches from bus number.

Rear of Bus: Centered on door, between upper and lower window.

Type C Buses

Left and Right Side: Centered between the top two rub rails, right edge of decal positioned no closer than 3 inches from the bus number, left edge no further than 12 inches from bus number.

Rear of Bus: Centered on door, between upper and lower window.

Type D Buses

Left and Right Side: Centered between the top two rub rails, right edge of decal positioned no closer than 3 inches from the bus number, left edge no further than 12 inches from bus number.

Rear of Bus: Six inches below rear window, centered.

Special Needs Buses

Left and Right Side: Same as regular buses.

Rear of Bus: The International Symbol of Accessibility cannot be obstructed. The DOE position is that there is not an acceptable location on the rear of Special Needs Buses.
